

Wayne,

I would like to thank you for your assistance in helping us succeed in completing our RAVS in a timely fashion. We were being pushed by a Client to have them completed for a bid and although we have a through HS&E Program, writing them in the ISNetwork format was extremely time-consuming. With your assistance, this was completed in two days and allowed us to meet the deadline for bidding. You provided us with an excellent product and I truly recommend your company to others.

Sincerely,

Trevor Wiebe
